

Cub Scout Program

Wolf and Bear: Wildlife Academics Pin

Bear: Sharing Your World with Wildlife

On this Sunday event you will explore endangered animals that live at Red Rocks, learn how to identify animal tracks, meet a Zoo educator and more. Bring your Cub Scout pack to the Zoo and enjoy a walk around the Zoo while earning your Sharing Your World with Wildlife Activity and Wildlife Academic Pin. Upon check-in you will receive a booklet which will guide you through the appropriate activity stations to help you earn your activity or your pin. Activity stations include:

- Meet a wildlife conservation educator and see some cool biofacts they use in their programs. (Requirement 5c)
- Explore animals at Red Rocks and learn about why animals become endangered or extinct (Requirement 5e)
- Visit the Insectarium and discover animals that use camouflage to protect themselves.
- Learn how to bring wildlife into your backyard by creating a birdfeeder
- Investigate different classes of animals and create a collogue
- Learn how to identify some common animal tracks and make a plaster cast of your favorite track to take home

In order to complete your pin you will need to observe your birdfeeder at home for one week. When all activities are complete you may show your booklet to your cub master to receive your patch or pin.

Program Cost: \$5 per Scout

Date: Sunday October 19 12:00 p.m. – 4:00 p.m.
