

In coral reef sailing at the sea base, a 44' sailboat becomes your home for 7 days. It is fully equipped and staffed by a licensed captain. Your group will sail, fish, snorkel and visit many exciting places. The crew size is six including leaders and you must be 13 by January 1 of the year you attend.

In mariner sailing your group is furnished two 25' sailboats and equipment. A sailboat instructor helps you navigate and explore many reefs and islands of the Keys. This program is designed for crews with prior experience. The crew size, including leaders, must be from 7 to 10 and must meet the same age requirement as above.

In sea exploring on a 65' ship fully equipped and staffed usually by six experienced Sea Base members your group is provided with a fantastic Bahamas experience. Over eight days you visit small islands, dive, fish and sail the clear Caribbean. The crew size must be 20 to 22 people including leaders. Each person must meet the age requirement above to attend.

In scuba certification you become scuba certified. It is fun and challenging and is supervised by professional dive instructors. All equipment is provided in this 7 day outing. The crew size is from 6 to 8 people. All crews must meet the age requirement.

In scuba adventure you get to practice your scuba skills on the reefs and wrecks of the Florida Keys. During the 7 days you explore our underwater world, learn marine biology, and oceanography. You also have a chance to wind surf and fish. All crews must meet the age requirement.

In out island adventure your access to this remote island wilderness is by Sea Base launch. You are supplied with sail boats and outboard motorboats, food, water, snorkeling gear, and fishing tackle. Your experienced program mate will be with you to instruct in safe boat operation and primitive island skills that will help you throughout the seven days. The crew consists of 6 to 8 people.

For more information contact: Florida National High Adventure Sea Base
PO Box 858
Islamorada, FL 33036

Visit their website: <http://www.bsaseabase.org/>

There are four different Northern Tier Program camps. They are: Charles Sommers Wilderness Canoe Base in Ely, MN; Bissett in Manitoba, Canada; Atikokan in Ontario, Canada; and Northern Wisconsin. There are many different programs put on by each camp. All participants must meet the age requirement of 13 years of age by January 1 of the year they attend. There is Okpik which is offered during the winter months. Its purpose is to show you how to build shelters out of snow, teach winter ecology, cross country skiing, and much more.
