

Across This Great Country

***ACROSS THIS GREAT COUNTRY
WEBELO FALL ENCAMPMENT***

September 30-October 2, 2011

S-F Scout Ranch

Campmaster:

Tom Zeuner: 314 842-0774

Email: tzfish@aol.com

NOTE FROM THE CAMPMASTER: TOM ZEUNER

Parents and Unit Leaders,

The fall encampment is fast approaching. The theme for the weekend is centered on this great country we have. It just celebrated its 235th year. This country is vast and diverse. At this encampment you will get to see and try some of the things that have made this country great, and have some fun too.

Every pack will need to pick a state they will represent. (Missouri not being one of the choices; that is reserved for staff.) You will need to learn about “your” state; its motto, song, mineral, bird, where it’s located in America (on a map), state flower, industries, attractions, historic places and events that took place there. The sooner you register your pack the better chance of getting the state you want. Have a couple of back-up choices, in case that state has already been chosen. You can make your choice by telling me or calling, email may not work as good as a phone call because I could come home to 25 emails wanting New York. By the time everybody gets a return email that New York was taken, your next choice could be taken.

List of Saturday Events

1. **TARGET SHOOT:** In settling this country, you had to know how to shoot. I'm not just talking about the Wild West; one needed to know how to shoot for food, clothing and protection. Test your skills.
2. **LOGGING:** Logging made this country. How were the cities built? Wood! What were the ships made of to ship things back to Europe? Wood! What kind of boats did the fishermen use? Wooden ones! Let's see what it was like to be a lumberjack. Throw an ax, (playtime for lumberjacks).
3. **FISHING:** Cast a line and see how accurate you are. The fishing industry was and still is big business in this country, helping make this country grow strong.
4. **PROSPECTING:** Nothing made this country grow and expand more than the shouting "I've found gold". Try your luck at panning for gold.
5. **HORSES:** Before planes, trains and automobiles everyone walked or used a horse; they were your car, tractor and train. See what it is like to work like a horse.
6. **SKIING:** Did you know that skiing is a form of transportation. You will have a chance to do some cross-country skiing.
7. **INDUSTRY:** With logging came lumber, so lets' build something.
8. **TELL US ABOUT YOURSELF:** Maybe a little like HOLLYWOOD, tells us about where you're from (your state). Make it a whole group event, everybody should participate.
9. **WHATS WRONG WITH CAMP:** This event should be fun, look the camp-site over and see if you can find anything wrong or out of place.
